Sri Chaitanya junior college

2019

Intermediate

7.28

Z.p.p High school

2017

S.S.C

7.7

Projects

Web Cloud:web-based cloud storage for secure data sharing across platforms

The project is based on web cloud technology. Which is used share the data securely to any system by encrypted format

WebCloud is a new system that encrypts data on the client-side before it is uploaded to the cloud. This makes it more secure than traditional cloud storage systems, which store data in an unencrypted format. WebCloud is also cross-platform and works on all major browsers.

Skills

MS EXCEL
