### About Me

Dedicated Information Technology graduate from Bhilai Institute of Technology, Durg, with expertise in software development across web, mobile, and backend systems. Skilled in building high-performance, user-centric applications with a focus on code efficiency and responsiveness. Experienced in full-stack development and embedded programming, with a passion for applying innovative technology solutions to real-world challenges.

### Skills

### Work Experience

#### Software Developer Intern – JPMorgan Chase & Co.

01/2024 – 06/2024 | Remote

- \* Engineered full-stack applications interfacing with a stock price data feed, utilizing proprietary JPMorgan Chase & Co. frameworks, tools and Java.
- \* Designed and implemented intuitive user interfaces for real-time and historical market data visualization for traders.
- \* Standardized coding practices and applied framework, resulting in a 25% increase in code quality and a 15% decrease in project delivery time, ensuring robust and dependable software solutions.

#### Full Stack Developer Intern – PurpleTutor

09/2022 – 03/2023 | Remote

- \* Contributed to the advancement and enhancement of the PurpleTutor website, a leading platform for online tutoring services.
- \* Played a pivotal role in designing and implementing new features, ensuring a seamless and user-friendly experience for both tutors and students.
- \* Demonstrated proficiency in front-end technologies such as React.js, JavaScript, and back-end technologies including Node.js, Express, and MongoDB.
- \* Successfully managed and optimized the admin panel, streamlining internal processes and improving overall efficiency.

#### Front-End Developer Intern – LetsGrowMore

09/2021 – 12/2021 | Remote

- \* Led the creation of an E-Commerce website using React.js and JavaScript, significantly improving user experience and interface design.
- \* Applied responsive design principles to ensure optimal performance across various devices and screen sizes, boosting accessibility and user engagement.
- \* Integrated and built a secure payment gateway, streamlining the transaction process for users.

### Education

#### BTech in Information Technology – Bhilai Institute of Technology, Durg

07/2020 – 07/2024

#### Class XII – St Xavier's High School Bharni, Bilaspur

05/2018 – 06/2019

### Projects

#### Website Builder – DION

- The Nextjs14 SaaS Website Builder is a comprehensive platform designed to empower businesses with seamless website creation, project management, and revenue generation capabilities.
- \* Crafted and launched the Next.js SaaS Website Builder, a versatile platform merging website creation, project management, and revenue generation functionalities.
- \* Seamlessly integrated advanced technologies including Next.js 14, Bun, Stripe Connect, Prisma, PostgreSQL, and Tailwind CSS to deliver a sophisticated user experience.
- \* Implemented secure Stripe Connect integration to facilitate revenue generation through seamless payment handling. Built reusable components and an intuitive user interface for a smooth user experience, catering to both technical and non-technical users. Optimized performance and scalability to support business growth and high-traffic demands.

**Cogito – Summarizer AI**

- \* Conceptualized and engineered a sophisticated AI summarizer web application utilizing React, Vite.js, and Tailwind CSS.
- \* Integrated OpenAI's cutting-edge language model seamlessly into modern web development technologies, including React for front-end development, Vite for streamlined build processes, and Tailwind CSS for refined styling.
- \* Orchestrated a rapid development environment with Vite, enabling Hot Module Replacement (HMR) for efficient debugging and iterative code enhancement throughout the development lifecycle.

**Web Dev Compiler**

- \* Spearheaded the creation of a cutting-edge Web Development Compiler utilizing modern technologies such as React.js, Vite, TypeScript, and JavaScript.
- \* Capitalized on the capabilities of React.js to craft dynamic and efficient UI components, elevating the user experience and streamlining development workflows.

---

**Awards**

---

**Grand Finalist – Smart India Hackathon 2023**

Contributed as a backend developer to the development of a groundbreaking project focused on Sentiment Analysis of Incoming Calls on Helpdesk.

**Semi Finalist – TechGig Coding Competition**

Recipient of prestigious accolades in the TechGig coding competition, achieving the semi-finalist status in both 2021 and 2023 editions.
