OBJECTIVE

Seeking for role as a Full stack developer. Passionate about building modern web applications and eager to apply skills in MongoDB, Express.js, React, and Node.js, Bootstrap, Tailwind to contribute effectively to software projects.

EXPERIENCE

01/07/2024 -
04/10/2024

- Full stack developer Intern**
Pesynergy
As a Full Stack Developer Intern at Pesynergy startup company, I developed scalable front-end solutions using HTML, CSS, JavaScript, React, Node.js, and MongoDB. I collaborated with teams, integrated APIs, and improved code quality. This internship honed my skills in full stack development, agile methodologies, and collaborative development.

EDUCATION

Final year

- Sant Gajanan Maharaj College of Engineering, Mahagaon**
Computer science and Engineering BTech
8.5

SKILLS

- React Js
- Next js
- Typescript
- SQL
- Node.js
- Express.js
- MongoDB
- Bootstrap
- Tailwind CSS
- Vanilla CSS
- HTML CSS javascript
- Git GitHub
- Figma
- Java
- C#

PROJECTS

- Resto. Food ordering platform**
Resto. is a Reactjs based user-friendly restaurant app designed to streamline dining experiences for customers and restaurant owners alike.for browsing menus, placing orders, and making reservations. The backend, still in development, will provide robust data management and support for various features like order processing, reservation scheduling, and user authentication.
(GitHub :- <https://github.com/amruta-Jodagudri/Resto>)
- NewsPadho - News Aggregation Platform**
NewsPadho is a React.js-based news aggregation platform that fetches and displays the latest news articles from a variety of sources using the News API. The platform is designed to provide users with a seamless experience for accessing breaking news and top headlines across multiple categories.React's useState and useEffect for managing component state and lifecycle.
(GitHub :- <https://github.com/amruta-Jodagudri/newApp>)
- Real_Estate**
RealEstate Hub is a dynamic and user-friendly real estate platform developed using the MERN stack. The platform allows users to browse, list, and manage real estate properties. It provides a seamless experience for both buyers and sellers, with secure authentication, interactive property listings, and advanced search features.
(GitHub :- https://github.com/amruta-Jodagudri/Real_Estate)
- E-commerce shopping platform**
I've built a cutting-edge e-commerce website using Next.js, MongoDB, and Uploadthing, designed to provide a seamless user experience. Having platform features like, A sleek interface showcasing trending products, Easy product uploads for authors, Robust backend with MongoDB for data management.
