Experience

Nov 2023 - Present

Full Stack Developer
ATPL Global   Bhopal , Madhya Pardesh

- Developed a comprehensive CRM website for managing social travel leads for a travel agency.
- Implemented Redux state management to manage complex application data.
- Ensured websites compatibility across various devices, contributing to a **15% rise** in mobile user engagement.
- Masterfully utilized diverse React libraries like **tanstack/react-table, react-hook-form, react-tag-input, react-quill, lodash, and html-pdf/renderer** to optimize data visualization, streamline form handling, enable user-defined tag creation, facilitate rich text editing, enhance data manipulation, and seamlessly generate PDFs.
- Uploaded and maintained internship projects on GitHub, demonstrating a commitment to code quality, **version control** best practices, and transparency in development processes.

Education

2022 - Present

Bachelors of Techonolgy
Vaish College of Engineering   Rohtak , Haryana

Major : Computer Science

Languages

English
Intermediate

Hindi
Native

Skills

C	C++	Java	JavaScript
React.js	MongoDB	Express	Node.js
SQL	Redux	CSS	Git
Tailwind CSS			

Projects

InvControl - Inventory Management

- https://github.com/annnmoll/InvControl
- InvControl is a modern and user-friendly inventory management application built with the full MERN stack (MongoDB, Express, React, and Node.js).
- Implemented secure user authentication, restricting the account creation privilege to administrators, thus enhancing system security.
- Successfully conducted thorough testing and debugging, resulting in a system with a 95% reliability rate and minimal error occurrences.

Gourmet Express

- https://github.com/annnmoll/Gourmet-Express
- GourmetExpress simplifes the process of ordering food from your favorite restaurants.
- Users can select their desired dishes, and place orders with just a few clicks.
- New users can quickly create accounts by providing basic information and verifying their email address.
- GourmetExpress utilizes cookies to enhance user experiences.

Extracurricular Involvement

- Accomplished recognition and a **consolation prize** by successfully competing against **25+ teams** in Hackathon event held at Vaish College of Engineering, presenting projects to a panel of judges.
- Attended an IoT workshop by **SmarDen Automations Pvt. Ltd.,** actively participating in live projects to develop practical skills in designing and implementing IoT solutions .
- Presented a research paper on Genetic Algorithms in AI at the **National Conference on Multidisciplinary Research and Innovation** .
